AIR-TICKETING

Skyfinix Consultancy have made use of latest technological innovations by having the best equipments for use in reservations. Our reservation system is fully computerized that allows us access to AMADEUS and GALILEO database. Once we get a request from the client, we search for the best available options and advise the client accordingly. Where possible, we provide more than three quotations and routings from different Airlines to enable the client have the best option. This competitive quotation gives the client room to choose the lowest fares enabling them to save. We also assign a specific Travel Consultant to handle a specific client, thereby ensuring continuity of information and creating room for business rapport.

When responding to requests, we also advise on Visa requirements, Travel Insurance, Hotel Availability, Security Situation, Yellow Fever and Cholera Requirements and Passport Validity. We do personal visitations to clients to ascertain the level of our service. This helps both parties to discuss any issues that may have arisen. In this way, no issues are left unattended. We hold periodic meetings with our clients to review on the service delivery, and advise them on the best way to reduce the costs. Another way of carrying out our work is to ensure our availability on a 24-hour basis. This has an advantage of attending to requests that may arise outside the normal working hours, during weekends and public holidays. When invoicing, we make sure that the invoice has details of the name of the traveler, date of traveling, Airline used, copy of the Ticket, the flown report from the Airline.

WHY CHOOSE SKYFINIX CONSULTANCY?

Quality Assurance

At Skyfinix Consultancy quality is meeting our customer requirements; our practice is to understand our customers' requirements, needs and expectations and to satisfy them on every job.

Customer Profile Generation

At Skyfinix Consultancy we obtain a wealth of information about our customers through the use of online or telephone surveys which focus on understanding who our customers are and what they need by gathering information on air travel and related services usage and interest information, the information provides a clear profile of who our customers are and, as a result, obtain the information necessary to target our services and communications more effectively.

Customer Complaints

Customers are the most important element of any business since they can directly attribute to the success or lack thereof. However, even the best of businesses will have unhappy customers at one point or another; what can distinguish you from the pack is how you deal with them.
